

Programme syllabus

This file is a sample shipped with the Almanac theme demo. Replace it with your own syllabus in the “Syllabus download” block.

What the syllabus usually covers

Weeks 1–2	Foundations: the vocabulary, the tools, and a first small project.
Weeks 3–6	Core skills, one topic per week, each ending with a short practical exercise.
Weeks 7–10	Applied work on a real case, with feedback from an instructor.
Weeks 11–12	Final project, presentation and certificate.

Format

- **Workload:** about 6 hours a week, evenings or one day a week.
- **Delivery:** on campus, online, or hybrid depending on the date you choose.
- **Assessment:** weekly exercises and one final project.
